PRELIMINARY AMENDMENT

Sir:

Technology Center 2600

Please amend the above referenced application as follows:

In the Specification:

Replacement Paragraph, Page 4, paragraph No. [0010]. Kindly delete paragraph No. [0010], lines 9-11, and replace it with the following replacement paragraphs [0010] – [0010.6]. Another version of the replacement paragraphs, marked up to show all the changes relative to the previous version thereof, are presented in the Version to Show Changes Made at the end of this current amendment.

a! [0010] These and other disadvantages sometimes encountered in using a liquid-based etch process in the fabrication of patterned webs that include thick conductive traces are overcome in the present invention, which in one embodiment is a metal-containing web for use in a liquid-based etch process to make product units, comprising an elongated substrate having
